

GST Holdings Limited Announces four products accreditation by LPCB

(Hong Kong, 28 July 2005) ----- **GST Holdings Limited** ("GST" or the "Group")(Stock code: 0416), China's leading fire alarm systems products and services provider, today announced that the Group's four products have accredited the LPCB Certification, which sets the ground for the Group's expansion to overseas market.

Four types of detectors produced by the Group are accredited by LPCB, the world's most authoritative certification in fire and security. The four products include JTWB-ZCD-G1(A) Conventional rate of rise and fixed temperature heat detector, JTY-GF-GST104 Conventional photoelectric smoke detector, JTY-GD-G3 Intelligent analogue addressable photoelectric smoke detector and JTW-ZCD-G3N Intelligent analogue addressable heat detector.

The Group's Chairman and Chief Executive Officer, **Mr. Song Jiacheng** said, "The Group believes that the LPCB Certification reveals the reliability and stability of GST products, this would enhance the Group's exposure and further reflects the Group's technological strength, setting the ground for GST's becoming a world brand, opens the door for GST to the European market, and helps the Group to obtain a passport for entering the international market."

The design of the four certificated products follows the latest EN54-5 : 2000 and EN54-7:2000 standards. The new testing criteria added include damp heat, steady state (endurance); vibration, sinusoidal (endurance); slow high-energy voltage surges; radiated electromagnetic fields, conducted disturbances induced by electromagnetic fields, which sets a higher standard for detectors. The Group's products are well designed and complied with strict testing environment, therefore the products are able to meet all the new testing criteria.

About GST Holdings Limited (Stock Code: 0416)

GST Holdings Limited is China's leading fire alarm systems products and services provider. At present, its products and services expanded to include fire alarm network, building automation system, video entry system, electronic power meter and installation services. The Group's major clients are professional equipment installer, system integrators, real estate developers, property owners and professional equipment distributors. Internationally, it has been successful since 2001 in selling fire alarm system to countries in the Middle East, Europe and Southeast Asia. In November 2004, the Group's brand was certified as the only "well-known trademark" in the fire alarm systems industry by the State Administration for Industry and Commerce in China.
